Active Drug Ingredient:  
Monensin.....20 G/TON

## PROFILE:

An initial creep feed and starter for goats of all classes from birth to six months of age and for developing bucks and show does requiring extra bloom. Designed to enhance youthful bloom, accelerate growth and develop clean conformation in growing to older does, bucks and breeding through age mature does.

## FEEDING INSTRUCTIONS:

Feed Duncan Fat "N" Sassy MON20 as the sole ration. Feed to goats along with a good quality forage and clean, fresh drinking water.

**CAUTION:** Do not allow horses or other equines access to feed containing Monensin. Ingestion of Monensin by horses has been fatal. Monensin medicated cattle and goat feeds are safe for cattle and goats only. Consumption by unapproved species may result in toxic reactions. Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. Do not feed to lactating goats.

Hubbard does not use "Restricted-use Proteins" in their products and is in compliance with FDA and state requirements regarding the use, handling and storage of "Restricted-use Protein" products.

## INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

*WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.*
