ACTIVE DRUG INGREDIENTS:

Decoquinate.....(45.4 G/TON) 22.7 MG/lb.

PROFILE:

Fundamental is a highly palatable pelleted sheep feed designed for flushing brood ewes, growing ram/ewe lambs and conditioning and re-conditioning rams prior to and after breeding. An economical feed to maintain body condition in growing lambs for a simple start to finish feed.

FEEDING INSTRUCTIONS:

Feed continuously at the rate of 1.0 pound per 100 pounds of body weight along with good quality forage to sheep to provide 22.7 milligrams of Decoquinate per 100 pounds of body weight. Feed at least 28 days during periods of exposure or when experience indicates that coccidiosis is likely to be a hazard. Provide a constant supply of clean, fresh water.

Hubbard does not use "Restricted-use Proteins" in their products and is in compliance with FDA and state requirements regarding the use, handling and storage of "Restricted-use Protein" products.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

WARNING: Do not feed to sheep producing milk for human consumption.
CAUTION: Do not use Decoquinate in feeds containing bentonite.
LIMITATIONS FOR USE: Feed at least 28 days during periods of exposure to coccidiosis or when experience indicates that it is likely to be a hazard.
