

Formulated as a grower/finisher feed for all classes of swine.

GUARANTEED ANALYSIS:

Crude Protein, min	13.0%
Lysine, min	0.8%
Crude Fat, min	8.5%
Crude Fiber, max	8.5%
Calcium, min	0.5%
Calcium, max	1.0%
Phosphorus, min	0.5%
Salt, min	0.3%
Salt, max	0.8%
Chromium, min	
Selenium, min	0.3 ppm
Zinc, min	100 ppm
Phytase, min*	224 FTU/lb.
Xylanase, min**	52.0 XU/lb.

*One unit of phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micromol of inorganic phosphorus per minute. Environmental factors such as feed pH, moisture and processing methods such as pelleting and extrusion may affect enzyme activity.

**One xylanase unit is the amount of enzyme which liberates 1 micromole of xylose per minute under the conditions of the assay.

FEEDING INSTRUCTIONS:

Feed as a sole ration. Always supply a source of fresh, clean water.

Hubbard does not use "Restricted-use Proteins" in their products and is in compliance with FDA and state

requirements regarding the use, handling and storage of "Restricted-use Protein" products.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

WARNING:

This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for swine and is not intended for other species.

PROFILE:

1310 is designed for feeders that push the limits of muscularity and maturity during the selection process. The industry is hungry for a high-fiber, low-protein feed that allows you to achieve more than you would by simply putting your projects on a sow feed. 1310 is the answer, with multiple fiber sources and a higher fat content — but it's the Alltech solutions included in this feed that make it unique for keeping that more extreme kind on track and ready to go to the ring.

Options in a 50-lb bag #75498 or bulk invoice THIS IS A PRODUCT SHEET ONLY, IN NO WAY SHOULD IT BE USED AS A FEED TAG
