Acid Fiber Detergent, max.....16.0%
Copper, min.....25 PPM
Copper, max.....55 PPM

*This includes not more than 1.4 % equivalent protein from non-protein nitrogen.**

Active Drug Ingredient:

Monensin.....20 G/TON

Feed Show-Rite Advancer® Plus MON20 continuously as the sole ration to non-lactating goats. A source of good quality hay and a constant supply of clean fresh water is also required.

CAUTION: Do not allow horses or other equines access to formulations containing Monensin. Ingestion of Monensin by equines has been fatal. Do not feed undiluted. Monensin medicated cattle and goat feeds are safe for cattle and goats only. Consumption by unapproved species may result in toxic reactions. Must be thoroughly mixed in feed before use.

Do not exceed the levels of Monensin recommended in the feeding directions, as reduced average daily gains may result. Feeding undiluted or mixing errors resulting in high concentrations of Monensin has been fatal to cattle and could be fatal to goats.

WARNING: Do not feed to lactating goats.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for goats and is not intended for other species.

PROFILE:

Advancer PLUS has Rite-Factor Technology in the bag, and added barley for a smoother look and fresher handle desired in today's competitive show arena. Utilizing specific levels of protein and energy sources, this feed has a unique ability to "Advance" maturity, muscle development, and maximize genetic potential in show goats. Advancer PLUS contains Monensin (R20) to help combat Coccidiosis.
