 Chromium, min.....0.5 ppm
 Selenium, min.....0.75 ppm
 Zinc, min.....7.450 ppm
 Phytase (Aspergillus Niger), min....567 FYT/lb*
 Phytase (Trichodema), min.....136 FYT/lb
 Xylanase (Trichodema longibrachiatum),
 min.....136 XU/lb**

*One unit of phytase activity (FTU) is defined as the quantity of enzyme which liberates 1 micromol of inorganic phosphorus per minute. Environmental factors such as feed pH, moisture, and processing methods such as pelleting or extrusion, may affect enzyme activity.

**One xylanase unit is the amount of enzyme which liberates 1 micromole of xylose per minute under the conditions of the assay.

PROFILE:

Sale Prep 800 is a great follow up to the industry leading 50mg.

- Loose premix, add corn, SBM and CLE to create a complete feed.
- Designed for more belly and bloom while maintaining shape.
- Palatable feed with an easy transition from pelleted starters.
- Higher fiber option to get pigs sale ready quicker.
- Manufactured with organic trace minerals and EGG.

TOTAL, lbs	2000.00	2000.00

INGREDIENTS:

WARNING: This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper.

This product has been formulated specifically for swine and is not intended for other species.

CAUTION: Follow label directions. The addition to feed of higher levels of this premix containing added selenium is not permitted.

Caution: Follow label directions. Chromium from all sources of supplemental chromium cannot exceed 0.2 ppm of the complete feed for swine.

FEEDING INSTRUCTIONS:

Mix at the rate of 800 pounds with corn, soybean meal, and CLE according to the table below to make a complete ton of swine feed. Always supply a source of fresh, clean water.
