

1610

Formulated as a grower/finisher feed for pigs that need to maintain growth and muscle development.

FEEDING INSTRUCTIONS:

Feed as a sole ration. Always supply a source of fresh, clean water.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

WARNING:

This product, which contains added copper, should not be fed to sheep or related species that have a low tolerance to copper. This product has been formulated specifically for swine and is not intended for other species.

PROFILE:

1610 is designed to be a reliable feed that you can keep on hand for all types. Need to start lowering protein without sacrificing body and belly? Need to relax some muscle expression to tone down the “extreme” look? Or do you need to simply maintain growth and keep them in show shape? This new approach, featuring multiple fiber sources, allows 1610 to do all of that.
