

CLIMATIZER

Show-Rite Climatizer enhances muscle expression, aides in maintaining youthful bloom, and helps young goats reach their genetic potential.

FEEDING INSTRUCTIONS:

Feed starting and growing goats, along with good quality forage, at the rate of 1.67 pound per 100 pounds of body weight to provide 22.7 milligrams of Decoquinatate per 100 pounds of body weight per day. Feed at least 28 days during periods of exposure or when experience indicates that coccidiosis is likely to be a hazard. Provide a constant supply of clean, fresh water.

WARNING: Do not feed to lactating goats.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

WARNING: Do not feed to goats producing milk for food.

CAUTION: Do not use in feeds containing bentonite.

LIMITATIONS FOR USE: Feed at a rate to provide 22.7 mg per 100 lb. of body weight per day.

Feed at least 28 days during periods pf exposure or when experience indicated that coccidiosis is likely to be a hazard.

PROFILE:

Climatizer is the premier creep feed for young goats striving to reach their genetic potential. Formulated and designed to maintain youthful bloom and enhance muscle expression of the young kid, O2 Climatizer demonstrates the flexibility to function in extreme environmental conditions as a complete feed for developing champion wethers and does.
