

EXHALE

Multi-species supplement for all classes of swine, sheep, goat and beef cattle

Supports livestock respiratory function

FEEDING INSTRUCTIONS:

Apply 2 ml per 100 lbs. of body weight at the back of your livestock's tongue. Exhale can be given up to two times a day during show or for general respiratory support throughout the growing phase. Replace cap after use.

INGREDIENTS:

Please refer to the product label/tag for a complete list of ingredients.

PROFILE:

Show-Rite® Exhale can be used as an aide for those animals facing temporary respiratory challenges. Exhale opens airways and allows animals to breathe easier and perform with greater stamina and endurance

Approved for use in cattle, sheep, goats and swine. No withdrawal for meat animals. Not intended to diagnose, treat, cure or prevent any disease. If condition persists consult a veterinarian. Avoid contact with eyes and mucous membranes. Store at room temperature. Keep out of reach of children.

Contains a source of flavor.

Options in a 1 Fl oz. tube or a pack of 12 #64681
